FOR IMMEDIATE RELEASE

MOUNTAIN MAINTENANCE ROADWORK

San Bernardino County – Caltrans has begun maintenance roadwork on the San Bernardino County mountain routes. The work will include crack sealing, drain repair and cleaning, re-striping, and other related road repairs. The routes that will be affected are SR-18, SR-330, SR-38, SR-173, SR-138 and SR-189.

Flagging with one of two lanes closed may be expected Monday through Friday (daytime) throughout the summer months. Delays are expected to be minimal at less than fifteen minutes.

Motorists are advised to plan ahead and add a few extra minutes to their trip. For more information on other roadwork, please go to our website at www.dot.ca.gov/dist8 and go to "Press Releases". You may also call our Public Affairs office at (888) 383-4631.

Please remember that the workers will be within inches of your vehicle and the extra care you take in driving makes all the difference. The life you save may be your own when you *slow for the cone zone!*
